Timing will be by handheld stop watches. Competitors will start from stationary in the start box, in their own time upon clearance from the timekeeper. Timing will begin when the front wheels cross the start line. Timing will stop when the car crosses the finish line but it must subsequently come to a halt fully astride the finish line to avoid a further 5 second penalty.

Organiser's times are deemed correct.

Numbers – Numbers may be provided by the organisers and may be written on the competitor's scorecard.

Markings and Penalties Marking and penalties will be: Maximums and washouts – add 30* seconds to fastest time in that round (*may be altered on the day depending on conditions). Striking any pylon/post etc per mistake - add 5 seconds. Not coming to a halt astride the finish line, 5 seconds added.

General Regulations, The Motorsport UK General Regulations apply as written except for the following amendments:

Pylons may be less than 1 metre in height. The definition of a test performance and wrong test is as follows:- In any diagram illustrating a test, dimensions will be approximate and for guidance only, whilst the sequence of manoeuvres will be mandatory but not exclusive. A maximum penalty will be imposed when the mandatory sequence of manoeuvres has not been correctly completed. A test will not be incorrect if the driver realises his/her mistake, goes back to the point at which the mistake occurred and then completes the test correctly as required by the diagram.
